

FIVE WERE KILLED

Terrible Explosion in a Pennsylvania
Coal Mine.

The Relief Party Overcome By Gas,
But the Work of Rescue
Goes on.

TWO WERE FATALLY BURNED

Monongahela, Pa., March 7.—An
explosion in the Catesburg Mine of the
Monongahela River Consolidated Coal
and Coke Company resulted in the
death of five men and serious injury
of several others, two fatally.

The dead are: Mine Boss Robert
Howey, James Howey, Isaac East-
wood, John Gilder and William Mc-
Farland.

Fatally injured: James Hagger,
badly burned; James Terrent, badly
burned.

On Monday a premature explosion
of dynamite caused gas to ignite and
since that time the mine has been
burning. All the air channels were
closed and it was hoped that the
flames could be smothered. Yesterday
twenty men entered the mine to in-
vestigate. It is not explained what
caused the explosion but it is thought
that the turning of the air which had
been shut off by the fan caused the
gas which had accumulated to ignite.
A terrific explosion followed soon af-
ter the men entered.

A relief party headed by Superin-
tendent Sedden and Mine Inspector
Lottitt made an effort and nearly suc-
ceeded in reaching the imprisoned
men, but were compelled to return for
air. All were overcome and are in a
serious condition. A second relief
party headed by John Coulter entered
the mine by another way but a second
explosion occurred and they were
forced to retreat.

A third relief party made a futile
attempt. A fourth attempt will be
made to reach the bodies of the men.

James Hagger was reached by one
rescuing party. He was found badly
burned. James Terrent was burned
by the flames that shot up all around
him, but he crawled a thousand feet
from his companion, Gilder, who was
instantly killed.

ANDREE KILLED.

The Mystery Surrounding Aeronaut's
Death Cleared Up.

He and His Men Were Murdered By Esqui-
maux—Property Found.

WINNIPEG, MAN., March 7.—A re-

port sent out from the Hudson Bay
post at Fort Churchill over two years
ago, that Andree, the Swedish aer-
onaut, and his associates had been kill-
ed by Esquimaux, is confirmed by ad-
vices received at the head of the com-
pany here.

Alston Churchill, factor at Chur-
hill, which is the company's most
northerly post, on the west coast of
Hudson's Bay, has written that after
about two years' search the men sent
out by him have returned with a re-
port similar to the one first published.
Traces of the daring balloonist and
his associates were followed for hun-
dreds of miles, but it was impossi-
ble to locate the tribe who caused the
death.

The story of the searchers is that
Arctic Esquimaux saw "Gimik," one
of their largest boats, floating in the
air. When it settled to the ground
three white men, strangely dressed,
came out with guns, which they in-
discreetly fired. Andree and his assist-
ants were killed with musket balls
and everything else of value taken.
The searchers found knives, tobacco
and cartridges, supposed to belong to
Andree, in possession of one of the
most northern tribes, but could get
no further information.

News that Andree undoubtedly met
his death at the hands of Esquimaux
has been forwarded to the Swedish
government.

PILOTS' ASSOCIATION.

CAPT. DROWN HERE THIS
MORNING SECURING
SIGNERS.

Captain Pierce Drown of St. Louis,
secretary of the Mississippi and Ohio
Rivers Pilots' Association, arrived
last night from Cairo, for the purpose
of securing the signatures of pilots
who happen to be here to the agree-
ment to merge or consolidate the Mis-
sissippi and Ohio association, and the
Harbor. These two associations of
pilots have been separate and apart,
and did not co-operate, but as an
agreement has not been made to con-
solidate them, and the signatures of
all members of the two associations
are being secured to the papers.
This is what Captain Drown came
here for today.

WANTED IN TENNESSEE.

J. H. ALLMAN ARRESTED AND

the employ of the News-Democrat
as solicitor in the advertising depart-
ment, is the name of the man and he
is wanted in that place on a charge
of riding away on a horse that did not
belong to him. This was done six
weeks ago it is alleged and inside of
two hours after the letter was receiv-
ed from the sheriff yesterday after-
noon late Allman had been located and
arrested. Sheriff Atchison arrived
this afternoon to take his prisoner back
with him.

IT IS NOT DECIDED

Carpenter Contractors Will Stand
Pat, Whatever That Means.

It is Feared That Building Interests Will
Suffer as a Result of the Dis-
agreement.

COMES TO A HEAD IN APRIL

It is more than probable that there
will be trouble in building circles
this spring. The vast amount of
work contemplated, and much of
which has been arranged for, may
not be done, for the reason is a
probable disagreement as to the
working hours demanded by the car-
penters' union.

As stated, the carpenters some
time ago made a demand for a re-
duction from nine to eight hours, as
a working day, with increase in pay
that would enable them to receive
\$2.80 for eight hours work, where
they now receive \$2.50 for nine hours
work. This schedule is to go in if at
all, about April 1, when the new
agreements of unions with contractors
nearly all go into effect.

The contractors about two or three
weeks ago organized an association, or
union, of their own. The carpenter
contractors met yesterday afternoon to
discuss the situation, but all that was
given out was that they will stand
pat on what they had already an-
nounced—that they would not grant
such a demand as that from the car-
penters' union. If they do not, when
the time for the new agreement to go
into effect arrives, the carpenters will
refuse to work, and this it is feared,
will practically tie up all the building
in the city.

A number of property owners who
intended to build have decided to
wait, as they fear should the work be-
gin, it will be stopped by a strike be-
fore completed. One contractor stated
that he knew of a number of big build-
ings that will not be begun, if built
at all, on account of the disagreement.
One, he said, was a big double tenement
brick residence to be built by
Mr. Langstaff on Broadway, at a cost
of five or six thousand dollars. The
contractor could not indemnify him
against a strike before the completion
of the work, so he declined to let any
contract for it.

Several other unions wanted an
eight hour day, but have decided
since not to make their demands this
year.

BADLY HURT.

MR. GUY RANDALL INJURED AT
THE ILLINOIS CENTRAL
SHOPS.

Mr. Guy Randall, the well known
Illinois Central blacksmith and son of
Engineer Joe Randall, was badly in-
jured this morning while at work on a
piece of machinery.

A piece of steel flew out from the
flatter and struck him in the pipe,
cutting through. He was taken to the
U. C. hospital and later to his home
at Ninth and Clark streets. His many
friends will regret to learn of the
accident. It is not thought
that the injury is serious, however.

A Fatal Land Slide Occurs at Rosine

men Were Buried in the Debris.

Will Simons, colored, aged 25, and
Granville Morton, aged 21, white,
both of Horse Branch, and Thomas
Dobbs, white, aged 23, of Rosine,
were instantly killed yesterday after-
noon about 5:30 o'clock near Rosine
tunnel, on the Louisville division of
the I. C. railroad, by a landslide.

A crew had been at work at that
place widening out the cut, and had
placed the work train on a temporary
siding. On one side of the cut a land-
slide started, and before the men could
get out of the way several were caught
and buried. All escaped except the
above three, who were taken out dead.

KNIGHTS WILL DRILL.

Preparations For the Spectacular
Escort of Carnival Queen.

The Railroad Passenger Associations An-
nounced Rates For Elks.

The Elks are going to make their
parades among the principal features
of the carnival. There have been or-
ganized the Knights of the Hoanup,
which is derived from spelling Padu-
cah backwards, and these will num-
ber fifty, and drilled by Dr. J. V. Vor-
is. They will be handsomely uniform-
ed, and will be mounted, and accom-
pany the queen wherever she appears
in Public.

A St. Louis costumer is now in cor-
respondence relative to the uniforms,
and drills will begin shortly.

It does not seem to be definitely de-
cided what will be done about having
booths this year. The soliciting com-
mittee finds, and others members of the
order find, that a great many of the
merchants are in favor of having
booths, and want to prepare exhibits,
but the executive committee had about
decided against the exhibit street.
The question will be finally settled
within the next few days.

The Transportation committee has
received notice from the Southern
Passenger Association that a rate of
one and one third fare for the entire
carnival week has been made, with a
special rate of half fare for two days.
This governs all railroads entering Pa-
ducah, and extends from Dyersburg to
Horse Branch, with branch roads to
Princeton, Evansville, Hopkinsville,
Owensboro, and other points, to
Murphysboro, Ill., on the St. Louis
division of the Illinois Central, and
to Kincaid, Ill., on the main line of
the Illinois Central.

Tomorrow—Other Cases Called.

Judge Sanders had a large docket
in the police court this morning but
only a few cases were tried.

The case against Houston Wilkerson

kerson for flourishing a pistol. They
are the motormen who had a fight on
South Third yesterday.

Officers Harlan and Woods for malici-
ously assaulting and pounding Chas.
Reed, colored, was arraigned, and the
case continued until tomorrow morn-

colored, charged with breaking into
Denker's and Phil Stephon's, were
continued until Monday.

Roy Mitchell, colored, was fined
\$1 and costs for fighting Guy Mar-

A STORE BURNS IN MAYFIELD.

Parke. The fire originated from a de-
fective flue and most of the damage
was done by the water.

DAILY THOUGHT.

Search the Word of God and you

will be surprised to find out how

much greater seems to be the empha-

sis placed upon love to our fellowmen

than upon love to God.—Rev. W. E.

Biederwolf.

The longer the legislature remains

in session, the less it does. And we

ought to be thankful for that.

If the Democratic Congressional

candidates are as good fiddlers as their

friends would have us believe, per-

haps their music on the stump will to

a degree compensate the audiences for

the brand of oratory dispensed.

Emperor William will probably have

to buy another yacht to take back the

present that have been given his il-

lustrious brother, Prince Henry. Ev-

erywhere he goes he gets something

more substantial than an ovation.

The effort to secure a marine hos-

pital should be renewed. It seems the

time is ripe. Paducah is the logical

location for one, and our port is the

most important from Pittsburgh to

New Orleans. There was a marine

hospital here before the war, and

there is no reason why there should

not be one now.

The city council will settle the tele-

phone question at the next meeting.

If the members believe that the people

of Paducah who use telephones want

two systems, and that two systems

will be advantageous, they will ratify

the sale of the franchise and enable

others to establish another system. If

they do not believe that two systems

will result in the best telephone ser-

vice, which is claimed by many to be

true, they will not ratify a sale that

may result in two systems, and the

consequent disadvantages of a dual

system.

In another place a detailed state-

ment of the cost of the county roads

last year under Supervisor E. B. John-

son is given. The Sun recently took

occasion to comment on the cost of

the county road work, but it was that

portion of the work that cost the

county over \$75,000 in two years.

Under Mr. Johnson the cost was only

about \$15,000, which seems reasona-

ble enough when it is seen how much

work was done. Previous to that,

however, there has been principally

extravagance, it seems. At least, the

amount of work done last year, and

the cost of it, would indicate that the

money previously expended on the

roads must have been spent for noth-

ing. Another significant thing is

that the repairing to the gravel roads

in the county last year according to

Supervisor Johnson's statement was

only \$250 for all the gravel needed on

the roads. The remainder of the cost

of work on the gravel roads was for

fills, ditching, and bridges. This

shows how little the actual repairs to

the roads would cost if they were

graveled with the money that is

thrown away on them every year for

work that disappears with the advent

of rains and bad weather. The sooner

the county realizes this and begins to

gravel the roads and make them sub-

stantial, the lighter will be the yearly

burden on the taxpayers.

WE NEED AN OPEN DOOR.

Some of the members of the school

board are hot in the collar because the

Sun is in favor of the amendment to

the rules doing away with the exami-

nation required of applicants for the

position of superintendent of the pub-

lic schools. This was fully expected.

If it were not for their little scheme

to control the election of a superin-

tendent by shutting out all comers,

there would be no such rule. To do

away with the examination would en-

remember that you don't look in a

smart man's mouth to find his brains.

Another argument is that if the posi-

tion isn't worth coming after, it isn't

worth having, but this amounts to

nothing, either. There are plenty of

men who would be willing to come

here at a great expense and be exam-

ined, if the place were given to them.

But to go to such a great expense with

no assurance that there will be any re-

turn for the outlay is not to be expect-

ed of the most competent men. Those

who have good positions do not have

to follow such methods to get a job in

a city the size of Paducah at the sal-

ary that is paid, and those who hap-

pen to be in need of a position cannot

afford to spend such an amount of

money as a mere risk—to pay fifty, a

hundred dollars, or perhaps more, simply

for the privilege of trying to get a

position in the schools here. The board

of education should repeal the law

requiring such an examination, and

let as many men as desire apply for

positions. Then let the board elect

whomever it sees fit. The repeal of

the rule will not affect their prerogative

of electing the superintendent of the

schools a jot or tittle.

ROOSEVELT AND

SOUTH CAROLINA.

(St. Louis Globe Democrat.)

President Roosevelt is taking the

sensible course in determining to go to

the Charleston exposition. The Till-

man affair will not figure in the mat-

ter one way or the other. The visit

which the President is to make is the

one which, arranged for Lincoln's birth-

day, had to be abandoned on account

of the illness of the President's son.

One of the episodes of that visit, but

only a very small one, was to be a

sword presentation to Major Jenkins,

Lieutenant Governor Tillman, nephew

of the Senator, withdrew the invita-

tion to the President to present the

sword, but he did this on his own re-

sponsibility, and his act has been re-

peated by most of the persons who

subscribed to the fund by which the

sword had been purchased.

The representatives of citizens of

South Carolina have shown the Pres-

ident and the country that they have

no sympathy with Senator Tillman,

and that they condemn the act of

Tillman's nephew. The renewal of

the invitations to the President to go

to Charleston have made it plain

that the decent citizens of the Pal-

metto State have repudiated the acts

of both the Tillmans. They will be

ignored altogether on the President's

coming visit. The indications are

that the state is tired of the entire

Tillman family, and will abolish

them the first chance it gets. Nearly

all the newspapers of the state have

denounced the acts of both the Sen-

ator and the lieutenant governor. They

see that these persons have inflicted

a discredit on the state which it will

require years to live down.

Under present conditions the visit

of the President to Charleston will be

a bigger affair than would have been

the one originally arranged. It will

attract much more attention than

the other would have called out. The

recent outbreaks in Washington and

at the state capital have aroused the

South Carolinians to the importance

of making an emphatic repudiation

of the blackguardism of the elder Till-

man and the boorishness of the young-

er. The coming visit, therefore, will

be a notably great occasion. Osten-

sibly, the President goes to visit the

Charleston exposition. Actually, he

goes to see the people of that city and

state, of which it is the social metrop-

olis. The time when President Rose-

velt, in the latter part of the present

month, steps into Charleston will be a

notable day in the annals of that city

and its state.

ROYAL VISITOR.

Boston, March 7.—Soon after 1

o'clock Prince Henry and party reach-

ed Harvard. They were received by

President Eliot at Memorial Hall and

the members of the corporation of the

university were presented to the

prince. Then the visitors were con-

ducted to Sander's Theater, where the

Laws was conferred upon Prince Henry

by President Eliot.

Just before leaving the Harvard

University, Prince Henry received a

COUNTY ROAD WORK.

Supervisor Johnson Shows How the

Money Was Spent Last Year.

Total Cost Was Little Over Fifteen Thou-

sand Dollars on All Roads.

County Road Supervisor E. B.

Johnson, who has not had charge of

the county roads a year yet, has sent

The Sun an explanation of the costs of

the roads during his administration.

It states that the statutes define that

the road work shall be let to the low-

est bidder on the first Monday in

March of each year, after having

been advertised twenty days. Mr.

Johnson was elected in April, and of

course could not let the road contracts

in March, and as the county had ig-

nored the law, to let to the lowest bid-

der, the work was done by the county,

by day labor.

As a result, 300 miles of dirt road

were worked to September 30th, at a

total cost of \$5,162.36, with an av-

erage cost per mile of \$17.

Twenty miles of new roads through

woods were made, the stumps being

removed and all grading done, at a

cost of \$2,222, an average of \$111 a

mile. The bridges on the above roads

LIBRARY TRUSTEES.

A MEETING HELD LAST NIGHT TO HEAR REPORT OF REV. PERRYMAN.

Rev. G. W. Perryman and Messrs. Chas. Weille, Henry Savage and Jas. M. Lang met last night at the city hall to hear a report of Rev. G. W. Perryman, who went to Jackson, Tenn., to investigate the Carnegie library being erected there, and secure all the information possible for the benefit of the Paducah trustees.

One thing suggested by the trustees at Jackson was that no outside firm of architects be employed to draw the plans, as whenever anything went wrong, the work might be suspended until they could be sent for. The Jackson plans were drawn by Nashville architects, and the trustees claim that whenever they desired to make any changes, or to find out anything about the plans, they had to send to Nashville for the architects.

The trustees took no action last night, owing to the absence of Mr. Noble, and will hold another meeting next Tuesday night.

SAMPSON GREENBURG SAYS HE IS THE ORIGINAL SAMPSON OF THE SCRIPTURE.

Louisville, March 7.—Sampson Greenburg, who is under indictment on a charge of forging the name of J. H. Dorsey, was tried in the criminal court today on a sanity inquest. The jury adjourned him insane, and he was ordered committed to the asylum.

Greenburg told Judge Barker when he was presented that it was folly to try him on any charge except that of murder.

He claimed to be the original Sampson of the Bible and said that he might be rightfully accused of murder, as he had killed 1,000 Philistines with the jawbone of an ass. He said that the Lord was his attorney.

Evidence was introduced to show that Greenburg had been weak-minded for over two years.

RECEIVED BY THE POPE

New York, March 7.—John Wamaker, of Philadelphia, former postmaster general was received at the Vatican Wednesday, says a World dispatch from Rome, by the Pope, together with a delegation of a hundred distinguished men of the French church.

The interview took place in the Consistal hall.

The Pope entered in a Sedan chair, which was closed on all sides.

He was dressed in red robes on entering, but he afterwards laid them off and appeared in spotless white.

While receiving the apostolic benediction Cardinal Richard, of Paris, the leader of the French delegation, stood at the foot of the throne and read an address to the sovereign pontiff, who responded, saying that he was profoundly moved by the visits and salutations.

Leo XIII's reply to the cardinal's address was extemporaneous, spoken with great enthusiasm and vigor and was distinctly heard throughout the hall.

Cardinal Bisleti also gave a short written address to the Pope.

Poisoned by Absorption

POISON OAK, POISON IVY, BARBER'S ITCH, LEAD AND BRASS POISONING, ETC.

Through the pores of the skin many poisons are absorbed into the blood, deranging the circulation and affecting the constitution as quickly and seriously as those generated within the system. Just under the skin are innumerable hair-like blood vessels, and connecting these with the skin are millions of small tubes or glands, through which the poison is conveyed to the blood system. During the spring and summer, while the skin is most active and the pores well open, we are much more liable to be affected by Poison Oak and Ivy and other dangerous plants. Workers in brass, copper, lead and zinc have their health impaired and the blood supply poisoned through the absorption of fine particles of these metals and the acids used in polishing and cleaning them. Inhaling the fumes of lead give painters that pallid, waxy appearance of the skin. Barber's Itch is another disease that reaches the blood through the skin, and is a most obstinate one when it becomes firmly fixed in the system. After the poison has reached the blood and been disseminated throughout the system it is too late to resort to local applications. In many cases the blood is affected simultaneously with the appearance of the rash or eruption on the skin, and all efforts should be directed to the purification and building up of the blood. Ugly eruptions and sores will continue to break out in spite of salves, washes, ointments or other external treatment.

S. S. S. is especially recommended for poisons of this character. So completely does it destroy the effects of the Oak and Ivy that there is no possibility of its reappearance, and it is equally as efficacious in brass or lead poisoning or Barber's Itch, building up and purifying the blood and driving out of the circulation impurities of every kind, and removing every blemish, sore or eruption from the skin. There is no substitute for S. S. S.; it is the only purely vegetable blood purifier known, and the safest and best in all constitutional or blood diseases.

Our Medical Consultation Department.—If you desire any special information or advice about your case, write our physicians, explaining your condition, and they will carefully consider what you have to say and you will receive a prompt reply. Our physicians have made a study of blood and skin diseases, and you can have the benefit of their experience and skill without any cost to you whatever. Don't hesitate to write fully about yourself, as nothing you say goes beyond our office. We have a very interesting book on Blood and Skin Diseases, which we will be glad to mail free.

PATENT FLAT OPENING BOOKS.

Observationsat Random

The artistic little booklet, "Paducah's White Week," gotten out by well known gentlemen has proven a greater success than was anticipated. Over three thousand will be disposed of in the near future. A second edition, with a much handsomer cover, is shortly to be issued, and it is fully expected that hundreds of these will be sold. In addition to those who have bought them to keep, or to send away from friends, many people at a distance who read of them in the papers have sent for copies, and local firms are thinking of buying a thousand or more to send to out of town customers.

The First District Congressional race for the Democratic nomination is now in the public eye, principally on account of the report that the daughter of one of the candidates is accompanying him and playing her violin to assist in entertaining the crowd. The story, embellished and exaggerated, was published in the state papers and sent away by correspondents for out of town papers and in a few days papers from Maine to Washington were telegraphing for the story. One account stated that in order to counteract the influence of the young lady with the violin, a rival candidate had bought a photograph, which he was using on the stump. A Chicago paper telegraphed to know if the young lady was going to emulate the example of the noted English case, in which a young woman gave kisses for votes, but the correspondent was afraid to go ask her. The avidity the out of town papers seem to have for the story is almost unprecedented. If the young lady's father doesn't become famous in the district it will not be because he hasn't come into his share of notoriety.

Speaking of notoriety reminds one of a true story that can be corroborated on a local photographer's. There is on the wall a photograph of a young lady formerly of Paducah. It is not only a pretty girl, but is an exceptionally pretty picture, and one most artistically finished. It was placed on exhibition soon after being finished, and a big picture concern heard of it, and after an examination offered the young lady four hundred dollars for the privilege of getting a copyright, and placing the pictures on the market, and one dollar royalty for each one sold. The young lady declined the offer because she did not want her picture sold broadcast over the country, although no one need ever know who it was. She is the only girl in Paducah, so far as is known, ever offered four hundred dollars for her picture.

County Judge Lightfoot threatens to go out of the matrimonial business. He has performed three marriages since he went into office, and has found after these three experiences that he cannot work himself up to a proper degree of solemnity on such occasions. His usual ceremony is, "You all want to get married? You want to marry this woman?" The applicants say "Yes," or perhaps not their heads, and then the judge concludes, "Well, you are married."

But he can't look serious. Yesterday he was called upon to marry a couple, the man being about 65 and

the blushing bride about 50. The ceremony was especially improvised for the occasion. He alluded to them as youth and maiden, just starting out on their journey of life, and told them of the joys of youth, when ambition is strong and there is happiness and brightness everywhere. After dwelling at some length on youth, he told them what to expect when their honeymoon was over, and in future years they became old. The couple seemed to appreciate the ceremony very much, because it was high sounding and long, but those who chanced to be in and witnessed it had to go away back and laugh, and the judge considered it a reflection on his dignity, and may decline to marry people hereafter.

A man who listened to some "spell-binder" every evening for three weeks during the recent municipal campaign, according to the New York Times, said the other day:

"Campaign orators do not always have time or occasion to explain expressions used in 'driving home' arguments. They must necessarily depend upon their audiences to 'see the point' through apt applications of such expressions. I have in mind one—'to talk turkey'—repeatedly used. The story of its origin is as follows:

"Two men, an Indian and a white man, agreed to hunt together for a day and to divide the spoils. When the time came there was no difficulty in apportioning the smaller birds and animals—one of a kind to each. At last they reached the last pair, a crow and a turkey.

"Now," says the white man, with a great show of fairness, 'you may have the crow and I'll take the turkey, or I'll take the turkey and you may have the crow.'

"Huh!" says the Indian, 'why you talk turkey to me?'

This is the story they tell of a cunning little 5-year-old girl whose nurse had been promising her all summer a little coon doll when the family reached the city, if she would be very good and obedient. This was a delightful promise and the little girl was as good as a little 5-year-old could be. Then the family came back to the city a little earlier than usual, and something interesting happened—a brand-new baby came to the house. It was a funny, red-faced little creature, which only a loving mother and experienced nurse could possibly consider beautiful, but it was a great thing for the little girl, who had never before in her short life seen a real live baby. "There is a great surprise for you," said the nurse, taking the 6-year-old upstairs, where the little new sister was lying snuggled up under a canopy of muslin and ribbons. "What do you think of that?" she continued, lifting the little girl so that she could see the funny little face on the white pillow. And the little girl, who was much pleased as anyone had expected that she would be. She gave the nurse a big hug as she cried, "O nurse, is that my coon doll?"—New York Times.

NOTABLE SERMON

Preached at Union Gospel Meeting Last Night.

Large Crowd to Hear Rev. W. E. Biederwolf—Much Interest Being Aroused.

A splendid congregation was present at the Union Revival service last evening, the crowds are growing larger and more interested each night. It is contrary to Mr. Biederwolf's usual custom to have any service on Saturday, but the local ministers feeling the time was short and interest great urged him to break his rule for this Saturday, and when the question was put to the big congregation last night, there was an overwhelming rising vote in favor of a service on Saturday night. There will be no service on Saturday afternoon, however.

The song service was of especial interest last night, beside the excellent chorusing, Mr. Maxwell and Miss Addie Hart sang "In the Upper Garden," with cornet accompaniment, most delightfully.

As a preliminary service Mr. Biederwolf mentioned a number of questions that are most apt to be asked or asserted by those who are not Christians, and the answer to each was read from the Scripture by Rev. Mr. Banks, of the Third Street Methodist church. It was a deeply impressive service. Mr. Maxwell then sang "Where Shall I Spend Eternity," with special power.

When Mr. Biederwolf announced his text, "What Shall I Then Do With Jesus Which Is Called Christ?"—Matt. 27:22, the tremendousness of the question and the awful responsibility it implied impressed every one. It was one of Mr. Biederwolf's strongest sermons, and he dealt with the great subject with masterly eloquence and force. Very vividly he placed before his audience the great scene in the world's history that led up to the question. The Judgment Hall of Pilate, the unwilling judge, the innocent prisoner, the clamoring people, and the fatal weakness and betrayal of his trust that led Pilate to miss the opportunity of going down the ages crowned with glory and honor were all strongly portrayed. He showed Pilate as typed in "Letters from Hell" and by Dante in the "Inferno," and the awfulness of the responsibility he had sought to avoid, but could not. With rare skill he brought the question down to us today, and said of all the questions ever propounded it is the most important—1. Because of the person with whom it deals. It is Jesus the Christ, and in answering the question every man stands face to face with the Son of God who died to redeem him from the penalty of his sin. 2. Because of what depends upon the answer. 3. Because it is a question that every one must answer. We have the Christ what will we do with Him today? Mr. Biederwolf enforced his points by virile illustrations, some being his own experiences when chaplain in Cuba during the recent war, and these were especially telling. That his words went very deep, was evidenced by the interest shown at the close, there being twenty or more requests for prayer. A number remained to the inquiry after service. While there is no excitement attendant upon these services, they are undoubtedly arousing deep feeling and interest and great good is being done.

Mr. Biederwolf is speaking this afternoon to a large congregation on "No Room for Jesus." A strong and practical statement of how the Christ is being crowded out of the business life, the political life, and the social life of today.

It was a funny, red-faced little creature, which only a loving mother and experienced nurse could possibly consider beautiful, but it was a great thing for the little girl, who had never before in her short life seen a real live baby. "There is a great surprise for you," said the nurse, taking the 5-year-old upstairs, where the little new sister was lying snuggled up under a canopy of muslin and ribbons. "What do you think of that?" she continued, lifting the little girl so that she could see the funny little face on the white pillow. And the little girl was much pleased as anyone had expected that she would be. She gave the nurse a big hug as she cried, "O nurse, is that my coon doll?"—New York Times.

NOTABLE SERMON

Preached at Union Gospel Meeting Last Night.

Large Crowd to Hear Rev. W. E. Biederwolf—Much Interest Being Aroused.

A splendid congregation was present at the Union Revival service last evening, the crowds are growing larger and more interested each night. It is contrary to Mr. Biederwolf's usual custom to have any service on Saturday, but the local ministers feeling the time was short and interest great urged him to break his rule for this Saturday, and when the question was put to the big congregation last night, there was an overwhelming rising vote in favor of a service on Saturday night. There will be no service on Saturday afternoon, however.

The song service was of especial interest last night, beside the excellent choros singing, Mr. Maxwell and Miss Addie Hart sang "In the Upper Garden," with cornet accompaniment, most delightfully.

As a preliminary service Mr. Biederwolf mentioned a number of questions that are most apt to be asked or asserted by those who are not Christians, and the answer to each was read from the Scripture by Rev. Mr. Banks, of the Third street Methodist church. It was a deeply impressive service. Mr. Maxwell then sang "Where Shall I Spend Eternity," with special power.

When Mr. Biederwolf announced his text, "What Shall I Then Do With Jesus Which is Called Christ?"—Matt. 27:22, the tremendousness of the question and the awful responsibility it implied impressed every one. It was one of Mr. Biederwolf's strongest sermons, and he dealt with the great subject with mastery eloquence and force. Very vividly he placed before his audience the great scene in the world's history that led up to the question. The Judgment Hall of Pilate, the unwilling judge, the innocent prisoner, the clamoring people, and the fatal weakness and betrayal of his trust that led Pilate to miss the opportunity of going down the ages crowned with glory and honor were all strongly portrayed. He showed Pilate as typed in "Letters from Hell" and by Dante in the "Inferno," and the awfulness of the responsibility he had sought to avoid, but could not.

With rare skill he brought the question down to today, and said of all the questions ever propounded it is the most important—1. Because of the person with whom it deals. It is Jesus the Christ, and in answering the question every man stands face to face with the Son of God who died to redeem him from the penalty of his sin. 2. Because of what depends upon the answer. 3. Because it is a question that every one must answer. We have the Christ what will we do with Him today?

Mr. Biederwolf enforced his points by virile illustrations, some being his own experiences when chaplain in Cuba during the recent war, and these were especially telling. That his words went very deep, was evidenced by the interest shown at the close, there being twenty or more requests for prayer. A number remained to the inquiry after service. While there is no excitement attendant upon these services, they are undoubtedly arousing deep feeling and interest and great good is being done.

Mr. Biederwolf is speaking this afternoon to a large congregation on "No Room for Jesus." A strong and practical statement of how the Christ is being crowded out of the business life, the political life, and the social life of today.

There will be services tonight, song service beginning at 7:30. Prof. Maxwell will sing, by request, "Count Your Blessings" at the song service. Tonight promises to be a service of great interest.

Saturday night's service and Sunday's services should be borne in mind. Sunday will be a great day. There is every prospect of the Broadway Methodist auditorium and annex being filled to overflowing at the afternoon meeting for men only, and also at night.

RAILROAD IMPROVEMENTS.

Work on the improvements to the shop yards was again begun this morning. The men had been laid off on account of the bad weather, but the work will now be rapidly pushed to completion.

The tank in the shop yards is nearly finished. All the staves have been set, and today the hoops are being set. The work will probably be finished within the week, and ready for use by Monday.

AN IMPORTANT DECISION.

LAEVISON'S PALE ALE AGAIN
DECIDED NON-INTOXICATING
BY THE COURT.

A case of much interest was tried today before Judge Sanders, in which Annie Baker was charged with violation of the law, by selling intoxicating malt liquors without license, but it was proven that she sold Laevison's Pale Ale, and the evidence all went to show that the Pale Ale was strictly non-intoxicating. On motion of Prosecuting Attorney Gilbert, the court dismissed the case, thereby showing that no license is required to sell Laevison's Pale Ale.

This decision, as well as many others decided in favor of Pale Ale, is of much importance to A. M. Laevison and Co., and their customers.
